## Report Description

## Report Overview:

This report provides 'Top N' utilization and cost metrics broken out by pharmacy.

Detail Line Description:

| Column Name | Description |
| :---: | :---: |
| Carrier | RxCLAIM® Carrier ID, alphanumeric. Part of basic four-tiered system (Carrier>Account>Group>Mbr) allowing for flexibility in defining benefit parameters for a group of people. Carriers are the highest level of the hierarchy used in RxCLAIM. A carrier is typically the company or organization who offers benefits to Mbrs. |
| Account | Part of a four-tiered system (Carrier>Account>Group>Member) allowing for flexibility in defining benefit parameters for a group of people. Accounts are the second level of the hierarchy used in RxCLAIM. They belong to the Carrier. Accounts can be used by the carrier to categorize their business entities. |
| Group | Part of a four-tiered system (Carrier>Account>Group>Member) allowing for flexibility in defining benefit parameters for a group of people. Groups are the third level of the hierarchy used in RxCLAIM. They belong to the account. Carriers use groups to further divide accounts, so that specific |
