

**ARKANSAS DEPARTMENT OF TRANSPORTATION  
TRAFFIC CONTROL DEVICE  
PERMIT AND AGREEMENT**

NOW THEREFORE, in accordance with these authorizations, the following Permit & Agreement is made and entered into between the Department and the local government, hereinafter "Applicant", to install, operate and maintain the traffic signals at the location requested.

The Applicant may proceed with work in accordance with the approved plans and specifications when both parties sign this Permit & Agreement. Acceptance of this Permit & Agreement signifies the Department and Applicant agree to the following conditions:

- 1) The Applicant and Applicant's contractor shall safeguard the traffic on the highway and/or intersection during construction covered hereunder by placement and maintenance of proper traffic control devices in accordance with the Manual on Uniform Traffic Control Devices. Applicant hereby agrees to hold harmless and indemnify the State Highway Commission, the Department, and its duly appointed agents, officers and employees, from all expenses, claims, liability, or damages of any kind or nature whatsoever due to the construction, performance or lack of performance of the work or that may arise during the periods the devices are being installed or in effect.
- 2) Applicant hereby agrees to be responsible for safeguarding all utilities in the work area(s) and to hold harmless and indemnify the State Highway Commission, the Department and its duly appointed agents, officers and employees, from all expenses, claims, liability, or damages of any kind or nature whatsoever due to the construction, performance or lack of performance of the work or that may arise during the periods the devices are being installed or in effect. Applicant shall notify Arkansas One-Call, at 1-800-482-8998, and have utility services located in this area prior to beginning work.
- 3) All work performed by the Applicant and Applicant's contractor shall comply with the Americans With Disabilities Act. The Department will not inspect the work for compliance; assurance of compliance shall be the responsibility of the Applicant. If required, Applicant shall correct any deficiencies found by others.
- 4) NPDES Phase II Storm Water Construction Permits shall be required on all projects that have a "disturbed soil area" of one acre or more. The Applicant may be required to obtain a Storm Water Construction Permit from the Arkansas Department of Environmental Quality (ADEQ) at 501-682-0627 or 501-682-0621. Regardless of any existing or future ADEQ requirements, all areas of disturbed soil, of any size, on the right of way shall be revegetated in accordance with the Standard Specifications for Highway Construction, Edition of 2003.
- 5) The Applicant hereby agrees that any change from the plan as submitted and approved must be reviewed by the Department before starting work. No changes will be made in the controller dial settings, cycle length and operation of the signals as noted in this Permit & Agreement without approval of the Department.
- 6) The Applicant hereby agrees that all work will be done at no cost to the Arkansas Department of Transportation.
- 7) The Applicant hereby agrees that the work and all materials used will be in conformance with the Institute of Transportation Engineers Specifications, the Manual on Uniform Traffic Control Devices (current edition), the Standard Specifications for Highway Construction, Edition of 2014 and any specifications or design standards supplied by the Department for this installation.

The Applicant shall contact the District Engineer listed below to schedule a preconstruction conference before beginning work and to provide information to the District Engineer prior to placing the traffic control device into flashing or full operation.

Dist. Eng.: Scott Mullis
