City of Conway – Central Landing Blvd.

CENTRAL LANDING BOULEVARD is now open to thru traffic between Oak Street and 6th Street. The 4 lane median divided street allows traffic to move between Oak Street at the west side of the I-40 Interchange to 6th Street between 5th Avenue and 7th Avenue. The new street also provides access to the Interstate 40 eastbound onramp. Traffic signal improvements at Oak Street were included in the project to accommodate the access to and from Oak Street.

A roundabout is located at the Central Landing Boulevard connection to 6th Street, which is still under construction. However, 6th Street is open to thru traffic and provides access to Harkrider and Exchange Avenue.

In addition, the Elsinger Boulevard – Amity Road Roundabout was opened in early February. This allows the Amity Road detour road to be removed and the eastern end of the 6th Street Interstate 40 overpass to be completed. The 6th Street overpass is projected to be completed and in service in June.
